

The image shows three Green Cell batteries connected in parallel by a red wire. The batteries are black with green and white labels. The labels provide the following specifications:

| Model      | Voltage | Capacity | Chemistry | Protection | Series                                |
|------------|---------|----------|-----------|------------|---------------------------------------|
| CUBE 200Ah | 12.8V   | 200Ah    | LiFePO4   | IP54       | Parallel: Unlimited<br>Series: 4 pcs. |
| CUBE 80Ah  | 12.8V   | 80Ah     | LiFePO4   | IP54       | Parallel: Unlimited<br>Series: 4 pcs. |
| CUBE 7Ah   | 12.8V   | 7Ah      | LiFePO4   | IP54       | Parallel: Unlimited<br>Series: 4 pcs. |

All batteries are labeled "FRESH ENERGY" and "Ultra Durable". The red wire connects the positive terminals of all three batteries, and the negative terminals are also connected together, forming a parallel circuit.

Schutz vor Aufladung  
unter 0°C zum Schutz der  
Batterie.
