We, CSG S.A., declare that the above mentioned products complies with the following standards:

- EN 60896-21:2004 Stationary lead-acid batteries - Part 21: Valve regulated types - Methods of test,
- EN 60896-22:2004 Stationary lead-acid batteries - Part 22: Valve regulated types – Requirements,

as well as requirements of Directive 2006/66/EC. Batteries being in scope of the Directive need not be subject to the affixing of the CE marking or to the EU declaration of conformity.

Self-contained secondary cells and batteries free from electrical or electronic components other than intercell connectors are excluded from the EMC Directive 2014/30/EU and therefore the use of the CE mark is not appropriate.

Self-contained secondary cells and batteries with nominal voltage &lt;75 V are excluded from the Low Voltage Directive 2014/35/EU and therefore the use of the CE mark is not appropriate.
